STAY IN TOUCH!

"Espace Ulys provides us so much help and guidance. I cannot imagine how Espace Ulys can manage this tremendous task with ease. Hats off to everyone involved in this organization! The events organised make us meet new people and make friends with lots of love and affection." — Sathya N., India

"I think Espace Ulys provides an incredibly useful assistance for foreign scientists. It’s never easy to move to a new country, and France is well known for having a lot of paperwork that can be difficult to follow. Espace Ulys gives a personalized attention to scientists and their family, and makes us feel warmly welcome in Lyon." — Jorge R., Cuba

"Your services are awesome and your response is quick. That is something I like." — Ricardo A.M., Mexico

Being aware of the issues related to the mobility of talents for excellence in research, a major concern for Université de Lyon is to receive well international scientists.

Therefore, Espace Ulys has been created to welcome international researchers and PhD students together with their accompanying family on the territory of Lyon and Saint-Étienne.

Espace Ulys is a member of the European and French EURAXESS network and is supported by IDEXLYON.
